St. Petersburg, Feb. 9 .- A delegation of citizens of Ekaterindoar, Caucasia, sent to St. Petersburg to obtain the mperor's personal assurance that the land question would not be settled by ence by Premier Wittee Tuesday. -An interesting account of the interview was published Wednesday. The premier has pointed out that the agrarian problem ald not be solved by a division of the est land. The spokesman of the delegation replied that the easants did not wish to buy land, but ere determined to receive it as a gift from the government. At the close of an informal discussion the premier thanked heaven that the conditions in Russia were different from those pre according to the published report, that a French president was dependent on the electors and an English king on Jew-ish bankers, but the Russian emperor was independent. The consummation desired by the revolutionists that the country be ruled by Poles, Armenians and Jews, would not be realized. The premier is said to have added: "The reatness and happiness of Russia are hats would still be peasants." If only it had not been for this unhappy war, if only victory ind been on our side, all would now be well. But God did not so will it." At the conclusion the delegation that they would be regave the same pledge to deputations of Buriats (a Mongolian people living chief-ly in the government of Irkutsk and Translanikal territory), which arrived here to demand special representation in the national assembly and permission to live in their old condition of Nomad-

IN LUNGS. In the Edinburgh University three human lungs lie side by side. One is of an Eskimo and is snow white. In life, this would be ruddy with rich blood. Another is that of a coal-miner and is black. The other is of a town dweller and is a dirty slate
